Indexing data	
Test designers	<i>Aguilera, Moreno.</i>
Testers	<i>Coello, Jesús</i>
Notes	<i>We are doing the acceptance test within the same group because the group we originally were going to do them with has decided to drop out at the last minute and we cannot find anyone else to replace them.</i>
	<i>We are aware this is not optimal, but we have no choice. At the very least we have taken the precaution of making sure that the person who tests the project is whoever has been least involved with the development of that project in particular, to ensure that it's properly tested.</i>

### Effectiveness

*Document the effectiveness of your testers. Compute it as the ratio of intentional bugs that they've found to the total number of intentional bugs that you injected, e.g., "85.56%".*

## Table of contents

Bug in use case <01> <Register as a user being anonymous> .....	3
Bug in use case <02> <Browse the routes being anonymous>.....	3
Bug in use case <08.1> <Create, edit and delete a route being a user>.....	3
Bug in use case <09.2> <Browse the followed users being a user> .....	3
Bug in use case <09.3> <Browse the follower users being a user>.....	3
Bug in use case <11> <Display a dashboard being an admin> .....	4
Bug in use case <12> <Create a chirp being a user> .....	4

## **Bug in use case <01> <Register as a user being anonymous>**

### *Description*

*The phone constraint isn't controlled at the form validator. It gives a generic error when you fill in a phone that doesn't follow the regexp.*

### *Results*

*The tester found the error because it was controlled at the acceptance tests.*

## **Bug in use case <02> <Browse the routes being anonymous>**

### *Description*

*If there's more than one url at the pictures of the route, all are displayed at the same image, so nothing is displayed.*

### *Results*

*The tester doesn't found the error.*

## **Bug in use case <08.1> <Create, edit and delete a route being a user>**

### *Description*

*The cancel button doesn't do anything.*

### *Results*

*The tester report that doesn't work but he or she doesn't see what's wrong.*

## **Bug in use case <09.2> <Browse the followed users being a user>**

### *Description*

*The list is of the follower users instead.*

### *Results*

*The tester found the error because the title says 'Follower' instead of 'Followed'. Test the link and put the results in the notes.*

## **Bug in use case <09.3> <Browse the follower users being a user>**

### *Description*

*The list is of the followed users instead.*

### *Results*

*The tester found the error because the title says 'Followed' instead of 'Follower'. Test the link and put the results in the notes.*

## **Bug in use case <11> <Display a dashboard being an admin>**

### *Description*

*The queries of average and standard deviations are disordered.*

### *Results*

*The tester doesn't found the error.*

## **Bug in use case <12> <Create a chirp being a user>**

### *Description*

*The create form is for the comments, not the chirps.*

### *Results*

*The tester found the error. Test the link and put the results in the notes.*
